PROJECTS

FutureYou (AI-Powered Habit Analytics Web Application)

- Built a full-stack habit tracking and analytics platform using Next.js and Supabase
- Implemented user authentication and database management
- Integrated Mistral AI (via OpenRouter) for personalised insights
- Developed interactive dashboards using Chart.js and deployed using Render

TalktoData (AI-powered BI Platform)

- Developed the backend and data processing pipeline for natural language-based data querying
- Implemented data ingestion, query interpretation, and dynamic visualisation generation
- Integrated LLM (Gemini) for automated insights and explanations
- Collaborated on UI enhancements and prompt optimisation

AI Conclave (Multi-Agent AI System)

- Built a multi-agent AI system for structured problem solving (proposal → critique → refinement → synthesis)
- Implemented role-based agents using multiple LLMs (Mistral-Nemo, Qwen2.5)
- Integrated real-time web data APIs to improve response accuracy
- Designed an Evolution Log to track response improvements

EDUCATION

B.E. in Information Technology, M.V.S.R. Engineering College - 8.9 CGPA	Expected 2028
Intermediate (MPC), FIITJEE Junior College - 938/1000	2022 - 2024
10th Standard, Radcliffe School - 88.6%	2022

TECHNICAL SKILLS

Languages: Java, Python, C

Web: JavaScript, HTML, CSS

Frameworks/Libraries: React.js, Next.js, Tailwind CSS, Chart.js

Backend & Database: MySQL, Firebase, Supabase, REST APIs

Tools: Git, GitHub, Render, Vercel

CO-CURRICULAR ACTIVITIES

- GeeksforGeeks Hackathon** - Built TalktoData, an AI-powered BI platform using natural language queries
- Forge Aluminus Codeathon** - Developed AI Conclave, a multi-agent AI system for structured problem solving
- Forge Aluminus Hackathon** - Contributed to building HireWise AI, an AI-based recruitment system
- Smart India Hackathon** (Internal Round) - Worked on EduBridge, a low-bandwidth learning platform; contributed to frontend and basic backend features
- College Project Expo** - Presented an AI-powered habit analytics application (selected among 72 team projects from the IT branch)
- CSI Telangana Convention** - Participated in technical events conducted during Fusion 2025
- TechFest "iTeknophile" – Event Volunteer (BugSugi):**
 - Coordinated and executed the BugSugi event with 3 competitive rounds
 - Built a web-based platform featuring MCQs and debugging challenges for participating teams
